DWELLINGS ACCORDING TO CLASS – LOCAL GOVERNMENT AREAS

PREFACE

This Bulletin shows the numbers of occupied and unoccupied dwellings in each local government area in each State of the Commonwealth, and in each district in the Northern Territory and the Australian Capital Territory, at the Census of 30th June, 1954. Occupied dwellings are classified into private and other dwellings.

The figures herein are final, and the totals for any local government area, etc. may therefore differ slightly from those which appear in Census Bulletin No. 2. – Population and Dwellings in Local Government Areas.

In the publication of the 1954 Census results, local government areas have been arranged for the first time in alphabetical order in a series of "Statistical Divisions". These Statistical Divisions correspond to those used for many years in State statistical publications for the presentation of demographic and economic statistics.

Particulars are also shown for the first time for Non-municipal Towns with a population of 1,000 persons or more (750 in Tasmania). These towns, as the name implies, are towns which are not separately incorporated for purposes of local government. Their boundaries were specially determined for Census purposes to embrace the urban areas which could be regarded as the town. They have been indicated herein by adding the letters "N.M." after the name of the town.

Particulars of certain urban areas, whose component parts are shown separately in earlier tables of the Bulletin, appear also in aggregative form in Table 11.

An index has been provided for each State to facilitate reference to any local government area or town for which particulars are shown in this Bulletin.

The boundaries of local government areas for the purpose of the 1954 Census were, in the main, those of 30th September, 1953. Several subsequent alterations were provided for where the adjustments could be made without interruption to the general programme of Census work. Such instances have been indicated herein by a note to the local government area concerned.

All tables in this Bulletin exclude particulars of dwellings occupied solely by full-blood aboriginals.

In accordance with previous practice, Census particulars were not required of diplomatic representatives of foreign governments and the High Commissioners representing the governments of the members of the British Commonwealth, with their families and staffs. The greater proportion of these persons was in Canberra, Australian Capital Territory, where the number of dwellings excluded was 74.

DEFINITIONS

Dwelling. – For the purpose of the Census, a "dwelling" is any habitation occupied by a household group living together as a domestic unit, whether comprising the whole or only part of a building. The term has, therefore, a very wide reference, and includes, in addition to houses and flats, a great variety of "dwellings" ranging from a single-roomed shack to a multi-roomed hotel or institution.

Occupied Dwellings. – Occupied Dwellings are classified into private and other dwellings.

Private Dwellings. – These comprise mainly Private Houses (including Sheds, Huts, Garages, etc. used for dwelling purposes), Shares of Private Houses, Flats, and Rooms, Apartments, etc. In previous Censuses dwellings returned on the Schedules as sheds, huts, garages, etc. were included with private houses. In the Census of 1954 particulars of these dwellings have been tabulated separately and so appear throughout this Bulletin. Separate particulars are shown in the 1947 Census publications for private houses which were shared by two or more family units and for which only one Householder's Schedule was received, but in 1954 these dwellings were included with private houses.

DEFINITIONS (Continued)

Occupied Dwellings (Continued) —

Share of Private House. — A share of a private house is a portion of a shared private house which is occupied separately and for which portion a separate Householder's Schedule was furnished.

Flat. — A flat is part of a house or other building which can be completely closed off and which includes both cooking and bathing facilities.

Other Private Dwellings. — These include private dwellings such as apartments, rooms, etc., which are parts of buildings but are not self-contained units.

Dwellings other than Private. — These include Hotels, Boarding Houses, Lodging Houses, Hostels, Educational, Religious and Charitable Institutions, Hospitals, Defence and Penal Establishments, Police and Fire Stations, Clubs, Staff Barracks and Quarters, etc.

Unoccupied Dwellings. — The term "unoccupied dwellings" is not synonymous with vacant houses and flats available for occupancy, but refers mainly to "week-end", holiday and other dwellings whose usual occupants were temporarily absent on the night of the Census. Newly-completed dwellings awaiting occupancy are also included. Examination of the geographical distribution of such "unoccupied dwellings" indicates that for the most part they were temporarily unoccupied, or located in rural areas other than towns with a population of 1,000 or more.

TABLE 5. — QUEENSLAND. — DWELLINGS CLASSIFIED ACCORDING TO CLASS OF DWELLING :
LOCAL GOVERNMENT AREAS, CENSUS, 30TH JUNE, 1954.

(Exclusive of dwellings occupied solely by full-blood Aborigines)

NOTE. — The local government system in Queensland consists of separately incorporated Cities, Towns and Shires. Particulars of each of these are shown in the following table. Particulars are also shown for towns not separately incorporated with a population of 1,000 persons or more. They are indicated herein by the letters "N.M." (Non-municipal Towns) The Metropolitan Area of Brisbane is not divided for local government purposes, but separate figures are shown below for defined statistical areas which are geographical groups of suburbs.

An index showing in which Statistical Division each City, Town and Shire is located, and on which page its particulars appear, may be found following this table.

TABLE 8. — TASMANIA. — DWELLINGS CLASSIFIED ACCORDING TO CLASS OF DWELLING :
LOCAL GOVERNMENT AREAS, CENSUS, 30TH JUNE, 1954.

(Exclusive of dwellings occupied solely by full-blood Aborigines)

NOTE. — The local government system in Tasmania consists of two separately incorporated Cities (Hobart and Launceston) and 47 Municipalities, which include within their boundaries the whole area of Tasmania, apart from that covered by the two Cities. These municipalities include both urban and rural areas, the former consisting of separate towns or townships as distinct from the surrounding country-side. The Tasmanian Municipalities are thus more akin to the Shires, District Councils and Road Districts, than to the Municipalities of other States.

"N.M." indicates a Non-municipal Town with a population of 750 persons or more.

An index showing in which Statistical Division each Municipality, City and Town is located, and on which page its particulars appear, may be found following this table.
